

Green Gage (Jefferson) Plum

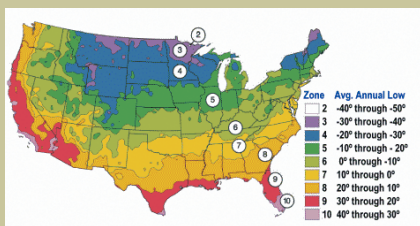

Prunus × domestica sp.

Medium size.
Greenish-yellow
skin. Very sweet,
juicy flesh. Self-
fertile. Grows in a
wide climate range.
Sets heavy, even in
coastal Southern
California and
replaces Santa
Rosa as a pollinizer
in Denver.

Requires 300-400
hours of chilling
below 45°F.

Ripens: July.

Cold hardy to
U.S.D.A. Zone 5.

Since 1944
